

Provel

State of the art O&P automation

Provel D2™ Digitizer

The Provel D2 is a fully automated prosthetic limb socket digitizer for capturing the internal shape of residual limb casts. It can also be used to duplicate existing sockets. The D2 is constructed of stainless steel and features one-button digitizing, fully automated measuring, landmark sensing, speed control, multiple file storage, and a high resolution direct drive encoder for high accuracy. True stand-alone capability. Automatic calibration verification for each digitizing cycle assures the user of reliable data. The D2 captures substantially more data points with greater accuracy than hand held scanners. Works with Provel Digitize to create industry standard AOP files.

Specifications

Resolution	0.16 mm, .006"
Capacity	Ø14" x 20"
Size	12 x 17 x 36"
Weight	35 lbs
Power	86-264 VAC, .5A, 47-440 Hz

Warranty

Provel products are warranted to be free of defects in material and manufacturing for a period of 1 year.
